SKILLS

- JavaScript (ES6+)
- React.js, Node.js, Express.js
- MongoDB, Mongoose
- REST API development
- Tailwind CSS, HTML5, CSS3
- Git & GitHub
- Responsive Web Design
- Problem-solving & debugging
- Redux-toolkit
- C Language
- Communication Skill
- NEXT JS

LANGUAGES

- English: Fluent
- Gujarati: Fluent
- Hindi: Basic

EDUCATION

2023- 2026
SAURASHTRA UNIVERSITY

- BSc IT

2024- 2025
SKYWIN IT ACADEMY

- MERN Stack development

PROFILE SUMMARY

Motivated MERN Stack Developer with hands-on experience building responsive and dynamic web applications using MongoDB, Express.js, React, and Node.js. Proficient in JavaScript (ES6+), REST APIs, and modern tools like Git and VS Code. Eager to learn, collaborate, and deliver clean, efficient code in real-world projects.

WORK EXPERIENCE

Ecommerce Application

- Developed a full-stack e-commerce platform with separate admin and user dashboards. Admin can manage products, orders, users, and static content, while users can browse, add items to cart, and securely place orders. Integrated Stripe for online payments, JWT for role-based authentication, and Nodemailer for transactional email notifications. Utilized Redux for global state management and built a responsive, modern UI using React.js, Tailwind CSS, and MUI.
- Tech: React.js, Tailwind CSS, MUI, Redux, Node.js, Express.js, MongoDB, Mongoose, JWT, Nodemailer, Stripe, Git

Twitter Clone Application

- Developed a fully functional Twitter-like social media application enabling users to create accounts, post tweets, like, comment, follow/unfollow other users, and view personalized timelines. Implemented secure authentication using JWT and bcrypt, and managed real-time UI updates using React Query for seamless server state management. Designed a responsive, modern UI with Tailwind CSS and integrated RESTful API endpoints for efficient CRUD operations on posts, users, and relationships. Prioritized scalable architecture and clean code practices following MVC design patterns.
- Tech: React.js, Tailwind CSS, React Query, Node.js, Express.js, MongoDB, Mongoose, JWT, bcrypt, Git.

Weather Forecast App

- Developed a weather application allowing users to view 5-day forecasts for any city. Integrated OpenWeather API for real-time weather data and styled the UI using CSS Modules. Focused on clean, responsive design and efficient API data handling.
- Tech: React.js, CSS Modules, OpenWeather API, Git
